

ACCELERATE LEADERSHIP PROGRAMME

The accelerate leadership programme has been specifically developed for operational leaders who have day to day responsibility for delivery as well as longer term planning, execution and results. It will give you the tools, tips and techniques to realise your potential no matter where you are on your leadership journey.

Bringing together operational leaders from across the lower north island, the Accelerate Programme is suitable for leaders who have an awareness that they want to further develop their leadership style, or who want to confirm what they already do well and would like some external support to take it to the next level.

The programme helps leaders to explore their leadership experiences, practice skills in real life scenarios and prepare for growth opportunities in the future. It will create a space for reflection, discussion and learning about yourself as a leader today, your strengths, weaknesses and how you can use these to develop as a leader tomorrow.

If you are expecting to listen to lectures all day, you're looking at the wrong programme. Accelerate is an interactive journey that includes a range of self-reflection, individual and team exercises, interaction, case studies and stories, goal setting and of course some of the best theory, tools and techniques to guide you along the way.

Importantly your learning doesn't stop on day three. You will leave the programme with a leadership action plan, follow up support and a cohort of like minded leaders who will continue to grow with you on the journey.

WHO?

The Accelerate Leadership Program is designed for high potential operational leaders who want practical tools, tips and techniques to enhance their leadership profile.
